Compass

Without visionaries like you, they would be no value created, no problems solved, no institutions built, no societies fixed, no inventions made and no progress experienced in our world. Literally, visionaries are miracle workers!

We catch tomorrow within the womb of our hearts, and labor to birth an audacious dream. Yet the journey to seeing and seizing the Big Picture of your life's work in different seasons can be confusing, frustrating and lonely. But it doesn't have to be.

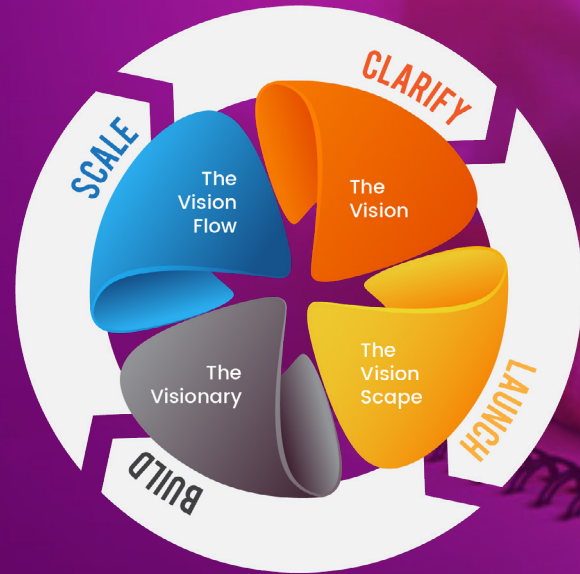

For years, it has been my passion to help future-forward and purpose-driven individuals discover their God-given mission, and steward it effectively in a way that truly transforms the world around them. I have equipped thousands of leaders, founders and changemakers – through teaching, coaching and mentoring – to fulfill their life's calling.

Whether you want to build a University, start an investment club for local farmers, run an urban fashion line for career women, create a coaching program for teenagers, help the families of missionaries or scale your business into a global practice; your dreams are valid – and I want you to achieve your vision.

We built the Visionary
Compass Accelerator
Program with a simple goal.
